

A LOOK AT UNINSURED MILLENNIALS

2020 Survey by GetInsured

30%

of 24 - 40 year olds surveyed do not have health insurance.

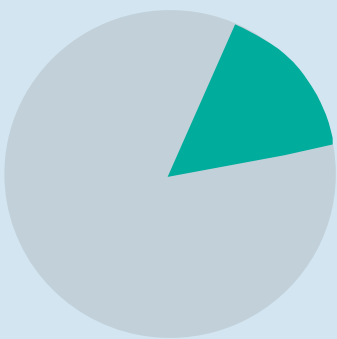

The **#1 reason** uninsured individuals gave for not having coverage was that a health plan was too expensive.

According to CMS data, the average 2020 health insurance premium after tax credits was **\$85 per month**.

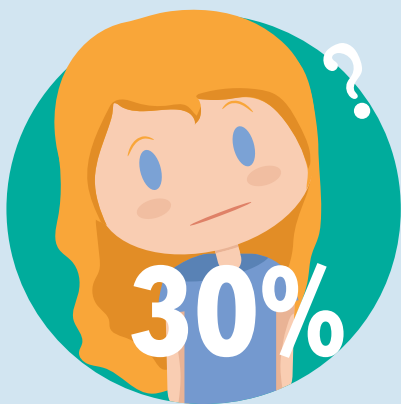

34%

were not aware they could shop for health insurance on a marketplace set up under the Affordable Care Act.

53% of those who were aware of the marketplace did not know about money-saving tax credits.

found shopping on the marketplace **too difficult to understand**.

80%

of uninsured Millennials have delayed going to see a doctor.
